

What Is Claimed Is:

1. A method of playing a game of chance, comprising:
 - receiving an initial ticket including initial game play information;
 - purchasing additional game play information not found on the initial ticket; and
 - determining if a player is a winner based upon a combination of the initial game play information and the additional game play information.
2. The method of claim 1, wherein
 - the additional game play information is provided on a second ticket.
3. The method of claim 1, wherein
 - the additional game play information is provided on the initial ticket.
4. The method of claim 1, further comprising:
 - tendering a winning ticket; and
 - receiving a prize if an authentication code on the winning ticket is validated.
5. The method of claim 2, wherein
 - the second ticket includes a display of the initial game play information.
6. The method of claim 1, further comprising:
 - determining whether the initial ticket is a winning ticket based upon the initial game play information; and
 - receiving increased prize winnings based on the additional game play information alone and on the combination of the initial game information and the additional game play information.
7. A method for facilitating the play of a game of chance, comprising:
 - providing an initial ticket including initial game play information;
 - receiving a request to purchase additional game play information; and
 - providing additional game play information after providing the initial ticket, wherein whether a player is a winner is determinable based on a combination of the initial game play information and the additional game play information.

8. The method of claim 7, wherein
the additional game play information is provided on a second ticket.
9. The method of claim 7, wherein
the additional game play information is provided on the initial ticket.
10. The method of claim 7, wherein
the initial ticket is not a winner based solely on the initial game play information.
11. The method of claim 7, further comprising:
redeeming a winning ticket for a prize.
12. The method of claim 11, further comprising:
maintaining a ticket log that includes information regarding previous sold tickets to verify the winning ticket.
13. The method of claim 11, further comprising:
tendering a prize if the winning is a valid winning ticket.
14. The method of claim 7, comprising:
determining and providing the additional game play information upon a purchase of the additional game play information.
15. The method of claim 14, wherein
the determination of the additional game play information is based in part on the initial game play information.
16. The method of claim 14, wherein
the determination of the additional game play information is based in part on a random selection.

17. The method of claim 7, further comprising:
 - determining a winning ticket prior to the generation of the additional game play information.
18. The method of claim 7, comprising:
 - populating a prize pool; and
 - determining an amount of the prize based on the prize pool.
19. A method for providing a game of chance, comprising:
 - determining initial game play information for an initial ticket;
 - determining additional game play information that is purchasable after the purchase of the initial game play information; and
 - displaying the additional game play information on one of the initial ticket and a second ticket,
 - wherein the combination of the initial game play information and the additional game play information determines if a ticket displaying the additional information is a winning ticket.
20. The method of claim 19, further comprising:
 - choosing a random entry in a prize pool to determine a winning status for a ticket.
21. The method of claim 19, further comprising:
 - determining if a particular ticket has been previously purchased.
22. The method of claim 19, further comprising:
 - scanning a second chance code on the initial ticket; and
 - determining whether the initial ticket has been previously tendered for additional game play information.
23. The method of claim 19, further comprising:
 - examining a ticket log to determine a winning ticket.

24. A lottery system, comprising:
 - a game play generator to generate initial game play information upon the purchase of an initial lottery ticket and additional game play information after the purchase of the initial ticket, the additional game play information being combinable with the initial game play information to determine if a ticket with the additional game play information displayed on it is a winning ticket.
25. The lottery system of claim 24, further comprising:
 - a ticket log to track at least one of the initial game play information, the additional game play information, a prize amount, and a redemption status of purchased tickets; and
 - a prize pool to determine at least one of available and collected winnings.
26. The lottery terminal system of claim 25, further comprising:
 - an operations controller to control the sale and redemption of tickets via a control program.
27. The lottery terminal system of claim 26, further comprising:
 - a storage arrangement to store the control program, ticket log, and prize pool.
28. The lottery terminal system of claim 27, further comprising:
 - a ticket machine to generate at least one of the initial and second ticket; and
 - a cashier terminal to facilitate the purchase of at least one of the initial and second ticket.
29. The lottery terminal system of claim 28, further comprising:
 - a server to facilitate communication between at least one of the ticket machine, the cashier terminal, the storage arrangement, and the operations controller.

30. An article of manufacture comprising a computer-readable medium having stored thereon instructions adapted to be executed by a processor, the instructions which, when executed, define a series of steps to be used to control a method of facilitating a game of chance, the method comprising:
 - determining initial game play information on an initial ticket;
 - determining additional game play information that is purchasable after the purchase of the initial game play information; and
 - generating the additional game play information on one of the initial ticket and a second ticket,
 - wherein a combination of the initial game play information and the additional game play information determines if a ticket displaying the additional game play information is a winning ticket.
31. The article of manufacture of claim 30, further comprising:
 - indexing a prize pool to determine whether at least of the initial and second ticket will be a winning ticket.
